

Mr. Mac's... got a

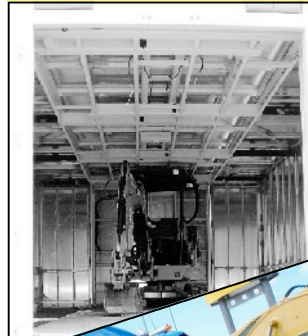

Goughs, the New Zealand agent for Caterpillar Machines (Cat) have recently become a principal sponsor of the "Doug the Digger Roadshow".

A brand NEW Caterpillar 301.8C mini excavator is part of the sponsorship and Goughs are pleased to see the Cat brand associated with such a good cause.

The mini CAT excavator has already been affectionally named " Little Cutie ".

Many young and up coming machine operators have had the opportunity to operate "Little Cutie" under instruction from Mr. Mac. They've also had a chance to learn the importance of reading and writing skills necessary in the construction , transport industries to get licenses and read contracts, plans, maps and safety signs..
