Personal Safety!

So that you can be seen and be safe, wear your Hi Viz safety jacket correctly by zipping up the zipper, clicking the domes or attaching the velcro strips.

If your Hi Viz safety jacket is not worn correctly it may cause an accident.

Being undone and flapping around, increases the risk factor of your Hi Viz safety jacket getting caught in moving parts or tangled up around the controls as you climb on and off your machine.

RIGHT!

WRONG!

Our model demonstrating right and wrong is Hannah Dewe of Tahakopa School, Southland.

Safety awareness and education is everyone's business.

Doug the Digger's book
"The need for good teeth"

"Oh, this ground is very hard", said Doug.
Mr Mac saw that Doug was having trouble biting
into the hard ground, so he changed Doug's
digging bucket to one with teeth.

*Oh, this ground is very hard
for a digger that is young
I'll need to get some bigger teeth
to make it really fun.*

"Mmm... that's better", says Doug.
The sharp teeth on the new bucket
slice into the hard ground easily.

*chomp, slew, spill, push, move, dump.
chomp, slew, spill, push, move, dump.*

Moral: *When things get hard, never, ever give up, make a change and keep on trying!*

TRUCK LOADS OF FUN!
